

*Masonic Lodge, Oslo, Norway. Linus Wallpaint on the ceiling and the walls.*

## Linus and Linseed Oil Wax for furniture

Gives a tough, washable and silky matt surface. Shellac all the knots. Paint using Linus Wall Paint to achieve desired coverage.

- Use a soft brush.
- Leave the paint to dry properly.
- Sand the surface with fine-grained sandpaper 180 – 220.
- Apply coloured or natural Linseed Oil Wax.
- Wipe within an hour.
- Leave to dry.
- White Linus paint should be waxed with white Colour Wax.
- The natural uncoloured wax comes out slightly yellow.

## Different shades

All Linus Wallpaint colours can be mixed with each other. Linus cannot be mixed with Linseed Oil Paint.

## Linus Wallpaint and yellowing

- The paint will yellow slightly if it is not exposed to light. In darker spaces, it can be a good idea to mix 10% – 20% grey with white Linus paint.
- Yellow marks will appear behind pictures, furniture, etc. but these will disappear on their own when the surface is once more exposed to light. Of course, marks can be painted over.
- Linus Wallpaint can react chemically with certain plastic surfaces. If this is the case, the first coat will produce a stronger smell. After that the paint will behave as normal.
